

I just want to weigh in on the Indiana Telephone Privacy Law. I think that it is a good law and should not be tampered with. I think that the FCC should leave it well enough alone. I used to get alot of unwanted calls ranging anywhere from 7 o'clock in the morning up to 11 o'clock at night before I signed up to be covered under the law. Ever since that law took effect, my amount of unwanted phone calls has reduced drastically. I don't get phone calls too early in the morning, nor do I get them real late at night anymore. I am very satisfied with the way the law is now, and I hope that it continues to stay that way. Thank you for your time.
